The Stafford loan application process will require that you:

1. Complete and forward the FAFSA (Free Application for Federal Student Aid) to the federal government with Union University's code of 003528
2. Complete a Union Financial Aid Application and a Stafford Master Promissory Note and forward to the Union University Financial Aid Office.
3. For more information, contact the Financial Aid Office at 731-661-5015.

If Federal Stafford loan is not approved and available at the time of registration, the student must assume the cost by paying in full by check, cash, credit card, or FACTS.

1. The student is responsible for providing information to the university regarding their employer's policies

for man > m q m u m q m a m m

an individual with a nurse practitioner degree desiring advanced study in nursing administration.

To prepare graduates for advanced professional nursing practice with specific functional and clinical abilities.

The nursing education certificate prepares nurses for educator positions in various settings such as staff development, patient education, schools and colleges. The nursing administration certificate prepares nurses for a variety of administrative and leadership positions in health care delivery systems.

The certificate program is part-time study with classes generally occurring one day per week over an 11-month period. In the final semester, clinical requirements of practicum commonly require more than one day per week. Courses taken out of the typical sequence will lengthen the time required to complete the certificate. Seminar Practicum must be the last course taken.

The enrollment of certificate students will occur on a space-available basis. Curricular needs of full-time MSN cohort students will be given priority.

Master's degree with a major in nursing.

wellness, prevent illness, and detect acute and chronic health problems among clients across the lifespan.

513 Advanced Nursing Concepts I (2) F

Prepares the student to critique, evaluate, develop and utilize appropriate theory in the advanced practice of nursing; also includes the study of the use of technology in health care practice, as well as educational and administrative decision making.

514 Statistics for the Health Sciences (3) F

Prerequisite: MAT 114 and admission to the MSN program.

This course serves as an introduction to biostatistics. Topics include a review of descriptive statistics, probability, and probability distributions; confidence intervals and classical hypothesis tests for one and two samples; analysis of variance; hypothesis tests for categorical data; regression and correlation; and nonparametric methods, all with an emphasis on applications in the health sciences. Appropriate statistical software will be utilized throughout the semester. This class consists of 3 class hours per week.

525 Nursing Administration—Introduction to Administrative Practice (3) S

This course will integrate information about delivery systems, organizational mission, structure, culture, personnel motivation, management and networking. The focus will be on exploring these concepts from a nursing perspective and a wholistic Christian worldview. This class consists of 4 class hours per week.

527 Nursing Specialty I—Adult Health (3) S

A study of the application of nursing practice to illness-related problems of symptoms associated with acute illnesses in selected populations. Emphasis: specific foundations of symptoms, models, theories, and empirical

ba IMpractiw S

selected populations. Emphasis: models, theories, and empirical bases of therapeutic nursing interventions that facilitate maintenance of chronic health problems, Clinical includes designing care based on evidence-based practice.

637 Nursing Education Practicum II (3 F)

Clinical culmination of the nurse educator clinical experience. It involves application of educational theories and wholistic nursing practice. Practice experiences are designed to synthesize knowledge and skills and to enable the advanced practice nurse to meet individual practice outcomes and career goals.

645 Nursing Administration—Applied Financial Management (3 S)

Prerequisites: NUR 530 and 535.

This course will facilitate a working knowledge of budgetary and fiscal issues specific to nursing management in various types of health care organizations. The content covers issues related to day to day fiscal management such as developing a budget and tracking revenue and expenditures. Computer systems used in fiscal management, as well as long range planning, are included. This class consists of 4 class hours per week.

655 Independent Study (1-4)

Individual research and study under the guidance of a graduate faculty member.

657 Nursing Specialty II—Pediatric (3 SU)

A study of nursing interventions to enhance physical and cognitive function of clients with chronic illness in selected populations. Emphasis: models, theories, and empirical bases of therapeutic nursing interventions that facilitate maintenance of chronic health problems, Clinical includes designing care based evidence-based practice.
