Curriculum

The Department of History offers courses that are designed to meet both cultural and professional objectives. The history courses attempt to give the student a discriminating knowledge of the past by encouraging an understanding of other times according to the standards of those times and by evaluating institutions and movements in the light of their effects upon later developments. History students encounter a diversity of teaching styles, learn about the methods of the discipline, and deepen their understanding of the integration of Christian faith and history. The geography courses provide the student with an understanding of the relationship between geographical elements and man's life on earth.
