have withdrawn must check with the Office of Undergraduate Admissions regarding reenrollment.

A former Union University student having less than a 2.0 cumulative GPA from Union University or less than a 2.0 cumulative GPA from all institutions attended will be considered for readmission by the Undergraduate Admission/Readmissions Committee. The student may be denied admission, readmitted with conditions, or readmitted under their prior academic standing at Union University.

The only acceptable level of work for graduation at Union University is 2.0 or above. Those who fail to achieve that level will be placed on academic probation.

If the student achieves a cumulative GPA of at least 2.0, academic probation status will be immediately removed. If the student fails to achieve the 2.0 GPA, the status of academic probation lasts for two full semesters and the short term(s) that immediately follow. While the student is on academic probation:

1. An official notice will be sent to the student.
2. The academic advisor will monitor a program of studies containing repetition of courses in which D's and F's have been earned and will urge reduction of extracurricular activities and work.
3. The academic load will be limited to not more than fourteen hours.
4. The Associate Registrar will counsel students individually toward GPA improvement.

If by the end of the two probationary semesters a cumulative GPA of 2.0 has not been attained, the student will be suspended from the University for one full semester. There is no appen9>>BDC B0.666.5 (er)-5/P /Lang (en-US)/MC>BDC BT-0.017 >>BDC BT1 (s o

one minor, to include junior/senior hours** 6*
Grade Point Average: cumulative 2.000
Cumulative each major 2.000
Cumulative each minor 2.000

*Total credit hours to be earned at Union University to meet residency requ0.5 63/20.-ents.

Union students need to know and love God's creation: anything physical and metaphysical which is distinct from God. They need to know about the inanimate from the subatomic to the cosmic, and about life, from its simplest to its most complex forms. Interactions between inanimate and animate are important to learn, as are the abstract concepts that have guided the study of the cosmos. They should understand how scientific views have changed, be skilled in scientific methodologies, and know their advantages and limitations. They should also understand and appreciate things we cannot touch, such as logic, numbers, goodness and evil, beauty and ugliness. Guided by Christian ideals, students should know how our understanding of creation can be used to improve life, alleviate suffering, and inspire beauty.

Union students need to know and love the human realm of creation. We want our students to understand (and wonder at) the physical, spiritual, and imaginative nature of humanity–in themselves, in others, in communities, and in cultures past and present. It is important for them to know the great ideas that have shaped how we live and think and to contemplate the creativity and self-reflection that so distinguish people from the rest of creation. We want them to see models of excellence in others that they may seek excellence for themselves. They need skills associated with human interaction. Finally, in all our studies of humanity, we want our students to be guided by Christian conceptions of human identity and purpose and to imitate Christ in service to others.

Throughout these academic pursuits and built into core courses, we want our students to develop a Christ-like character. The core curriculum at Union not only challenges students to know and to be skilled, it also challenges students to perceive and pursue virtue in their studies, social experiences, and in all areas of life. Knowledge and skill need guidance; that guidance comes from cultivated and practiced virtue. There are many ways to nurture Christian character; we will encourage students in the pursuit of the virtues presented in Scripture and in the Western tradition, such as the Beatitudes, the fruit of the Spirit, and the seven classic virtues.

The purpose of the core curriculum is to establish a common foundation of knowledge, skill, and virtue. These are valuable in their own right and also serve as a base for formal studies and life-long learning. The core challenges students to appreciate all legitimate human endeavors as godly calling and to discover such calling in their own lives. It provides opportunity for understanding, action, and faith to dwell together. The core provides the intellectual underpinning for engaging with the ideas of history and the issues of our day. The productive unity of the core will be found in the minds and actions of the faculty and students who work to see humankind, nature, and God

SOC 211, Principles of Sociology	3
Modern Foreign Language or Culture (see ICS Major for options)	3
Advisor-approved electives outside Social Work	3
Modern Foreign Language	3

CHE 113, Survey of Chemical Instrumentation plus at least 1 hr. of EGR Elective	
OR CSC 255, Programming in C	3
MAT 212-13, Calculus and Analytic Geometry II and III	3
MAT 314, Differential Equations	3
MAT 208 or 315, Statistics or Linear Algebra	3
PHY 231-32, General Physics I and II	4

A maximum of 32 semester hours toward graduation by correspondence (8 hours maximum) or credit by examination may be accepted. Students may not enroll for correspondence credit without approval in writing by the Registrar prior to registration for the course and the department chair or dean.

Credit-by-exam attempts can be made no later than the student's next to last full semester preceding graduation. May and Summer graduation applicants must complete all testing no later than December 1 in the previous fall semester. December and January applicants for graduation must complete all testing no later than May 1 in the previous spring semester. Students in the Teacher Education Program must complete testing in the next to last semester preceding Student Teaching. Registration for testing is limited and reporting time may vary; students should make plans and register accordingly.

Any variance must be approved in advance by the Registrar in writing.

A student re-entering the University after a lapse of ten years since the last academic credit was earned must have a conference prior to enrollment with the Registrar. A program of study will be formulated for the applicant to complete the degree.

Application for graduation should be filed in Self-Service during the fall semester prior to spring/summer graduation, or spring semester prior to fall/winter graduation. Graduation applicants not completing all requirements by the last day of final exams of the graduation semester or term will be moved to the next appropriate graduation date.

The Library participates in several formal agreements and partnerships with other libraries and library organizations to extend its service base. These local, state, and regional cooperative library programs greatly enhance student and faculty access to materials and facilitate the sharing of resources. These agreements include the West Tennessee Academic Library Consortium, Tenn-Share, Lyrasis, the Association of Christian Librarians, the Christian Library Consortium, and Waldo. The library is an active participant in the nationwide OCLC and DOCLINE interlibrary loan systems and Tennessee's statewide courier, Firefly. These agreements and partnerships afford cooperative ventures with colleagues, their institutional resources and further enhance the library services and resource collections offered to the Union University community.

Union is affiliated with Au Sable Institute of Environmental
