
Union University provides Christ-centered higher education that promotes excellence and character in service to church and society. Approved outside members are welcome to enjoy our wellness center and should understand the special environment in which Union University exists.

Expectations

The wellness center primarily serves Union faculty, staff and students, which is why we limit outside members. Outside members should maintain professional relationships with students. For your protection and the protection of our students, we ask that you refrain from developing new relationships with students that extend outside the wellness center, aquatic center, and activities center.

While on campus, outside members are asked to uphold Union's community values. Specifics of these values include (but are not limited to) refraining from any personal abuse, harassment or the use or possession of alcohol or illegal drugs. In addition, Union is a smoke-free campus. For a complete listing of adult values, please see <http://www.ou.edu/studentlife/handbook/>

Members in violation of these values will be asked to leave campus immediately and may have their membership revoked with no refund. Thank you for understanding and enjoy your time with us!
